

PRODUCT PREVIEW:

UPCOMING INNOVATIONS FROM SIMFLO!

We are excited to share a timeline of new products that are in development and will soon expand SIMFLO's product range.

Our upcoming lineup includes 7", 11", 12", 14", 18" and 20" bowls that will be available in multiple speeds, further expanding the SIMFLO product line within the 100 to 11,000 GPM range, including new Semi-Open (O) and Low NPSHr (N) designs. All upcoming models are engineered to perform in the toughest applications.

Check out the timeline below for the launch of these new products. *

Actual product release may shift due to testing and manufacturing variability.
