SM7M Nickel Aluminum Bronze (NAB) Impeller - Discontinued

SIMFLO has made the decision to discontinue production of the SM7M nickel aluminum bronze (NAB) impeller and will only supply the 316SS impeller for this hydraulic model moving forward. This decision was made after extensive research and evaluation of the overall product. SIMFLO's process of discontinuing products includes and is not limited to the following factors:

- Overall product performance
- Current condition of pattern equipment and tooling
- Availability and performance of other products within the SIMFLO product line
- Ability to improve future product performance

Effective November 5, 2026, this impeller has been removed from our product offerings and is no longer available. We have also removed this impeller from our electronic selection software.

If there are any questions, please contact your local or regional SIMFLO representative.
